

July 10, 2007

To whom it may concern,

I provide this letter as testament to the outstanding quality, professionalism, and service of Marilyn Pearson Cuisine & Company.

I engaged Marilyn and her team to provide catering, rental, and logistical services for Guardian Mobile Monitoring Systems' 5th anniversary celebration. Guardian is a small software development firm located in Vancouver, British Columbia, and employs approximately 25 technical and business professionals. Our event was for approximately 45 staff and guests and presented the logistical challenge of being held in a residential home.

The entire process, starting from initial proposal through to post-event follow-up was handled with exceptional professionalism and attention to detail. Marilyn and her team clearly took ownership of the event and were able to deliver an experience that helped to make the evening memorable for all in attendance.

Marilyn tailored a fantastic menu to suit our exact requirements and budget, and clearly went the extra mile to ensure that our event was memorable. The setup, service, and clean-up were handled flawlessly by a team that clearly places a priority on top-tier service and quality.

In the days following our event, I received numerous comments from those in attendance complementing me on the fantastic dinner. Those complements actually belong to Marilyn as it was her and her team that pulled the entire event together and made it a success. Ultimately, I had to do next to nothing apart from picking a date and location.

I would without hesitation recommend Marilyn Pearson Cuisine & Company to anyone looking to stage a memorable event.

Sincerely,

Devin Redlich
Director of Operations
Guardian Mobile Monitoring Systems
